

BLENDED GIFTS: MAXIMIZE YOUR IMPACT

While a deferred gift helps build a brighter future for Kansas State University, a **blended gift** can make an especially powerful difference. By combining a gift today with a gift in the future, you ensure your passions are supported now and for generations to come.

How it works

You can make a blended gift in several ways:

1 Give now + plan for later

Make a current gift of cash, qualified charitable distribution (QCD), stock or property and pair it with a deferred gift to support your K-State passion both today and tomorrow.

2 Already given? Expand your impact

If you are already making cash gifts, consider adding a deferred gift to meet future needs in your chosen area of campus, ensuring support for the next generation of K-State family.

3 Already planned? See your gift in action

If you've already made a deferred gift, you can start making an impact today with an immediate gift of cash, QCD, stock, property or other assets to the area you have previously chosen for your future gift.

Key benefits

- **See your impact today:** Experience the difference your gift makes on campus now while providing a future legacy.
- **Create your legacy:** Your future support ensures the programs and people you care about continue to thrive for years to come.
- **Preserve your wealth:** Retain your assets to provide for your needs during your lifetime.
- **Enjoy tax advantages:** Depending on the giving method and amount, you may receive an immediate income tax deduction and possibly an estate tax charitable deduction.
- **Support K-State!** Your generosity fuels innovation, student success and the Wildcat spirit.
